

SELF-CENTERING TECHNOLOGY

# CONTINUOUS SPIRALS CUTTING HEADS

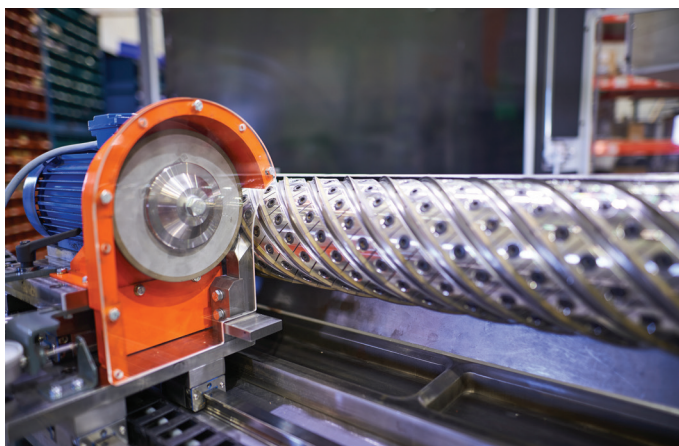

## Self-Centering Planer

- Accelerate your production speed up to **350 ft/minute (107 m/minute)**
- Sharpen the knives on the outside of the planer with our **custom cart and grinding machine**
- Replace your current cutter heads with this **new option**
- Reduce energy consumption compared to inserts cutting heads
- Plane **dry or green hardwood and softwood** with the same head
- Knife attack angles adapted to the types of material to be planed
- Easily interchangeable profiled and segmented knives
- Longer knife life due to the increased thickness of sharpenable carbide
