

ENVIRONMENTAL POLICY

We recognize that our operations have an impact on the environment and that we have a responsibility to progressively reduce their effects. With sustainable development in mind, we are committed to using energy, raw materials, and other resources responsibly, while integrating environmental considerations into our decision-making processes and operational improvements.

OUR COMMITMENTS

- Improve our energy efficiency and support initiatives aimed at reducing greenhouse gas emissions;
- Reduce waste generation and promote waste recovery and recycling whenever possible;
- Optimize the use of raw materials and minimize waste throughout our operations;
- Gradually reduce paper consumption, particularly through the digitalization of our processes;
- Incorporate environmental criteria into our investment, operational, and process improvement decisions;
- Raise awareness and engage our employees in adopting responsible practices in their daily activities.
